

Attention Bennies and Johnnies!

Support your neighbors

What is the DREAM Act?

The DREAM Act is a bill in Congress that grants access to an undocumented individual for permission to reside in the United States by proving a status of their enrollment in school. This bill provides a pathway to immigrants obtaining U.S. citizenship, within the bill's requirements.

What is D.A.C.A.?

The Deferred Action for Childhood Arrivals (D.A.C.A.) is a policy that shields immigration to individuals who were brought to the United States as children and protects them from deportation. This relief allows undocumented people benefits to obtain a work permit, receive an education, and an easier access to healthcare.

What is happening?

Immigrant youth are beginning to lose their D.A.C.A. protection plan that will affect more than 80,000 youth and adults in the country. Under the threat of revoking these protection plans, a decision will be made by Congress towards the status of these legislative reforms. However, it has now been 3 months that this decision has been pushed back, which has threatened many innocent people's abilities to live free and uninhibited lives.

What's our plan of action?

We can call our representative to support this inclusive legislation that will protect the new and young generation as much as possible. We have until March 5, 2018 to pressure lawmakers to advocate for these protection plans. Many undocumented individuals that have lived in the United States their whole lives have the possibility to be deported into a country they do not recognize. Let's help our neighbors remain in the country they love and help them achieve their American Dream!
