

EXTERNAL STUDY ABROAD PROGRAMS

Costs for study abroad programs not affiliated with CSB/SJU vary greatly. It is up to the student to determine tuition, fees, room & board and other expenses for non-CSB/SJU programs.

It is important to know what is included and what is not; do not just focus on the sticker price.

General Information on Financial Aid for Short-Term Study Abroad

Financial aid for short-term programs is typically limited to student and parent loans. Your eligibility and choice of loans depend primarily on how many credits you will be taking.

If you will be enrolled in six or more credits, you are eligible to borrow through the Federal Direct Loan or your parents are eligible to borrow through the Federal Direct PLUS Loan. However, students should be aware of how utilizing these funds may impact the amount of aid available for the following academic year.

If you will be enrolled in less than six credits, you are limited to non-federal private loans.

Students should meet with the Financial Aid Office to discuss all their available options for funding a short-term study abroad program.

General Information on Financing Short-Term Study Abroad

Short-term study abroad programs have 2 billable expenses: tuition and a program fee. The program fee will cover different expenses so it is essential to have a full understanding of what is included.

The following programs are exempted from a program fee: Balkans & Germany Internship and China Research.

The program fee is an ESTIMATE only! The final program fee will be established in April 2018.
