

THE NETWORK FOR ACADEMIC SUCCESS

As a student at the College of Saint Benedict and Saint John's University, your academic journey will be your own. But you will never be alone. This community is committed to your success and surrounds you with allies and resources. The Network for Academic Success includes offices that speak to a wide range of academic topics and experiences. The tools to succeed and excel are all right here for you.

Academic Advising

In college, independence includes knowing when to ask questions and seek support. The Academic Advising Office is here to talk through your goals, interests and priorities. In collaboration with your faculty advisor, we can help you create academic plans that align with your goals. Scheduling a 30-minute appointment with an academic advisor is a great way to work through procedural and technical questions about registration and make sure you are on track for graduation.

Libraries

The Libraries are centers for finding and connecting to your CSB and SJU family. They are places where you can learn, think and create. Our librarians can help you navigate challenging assignments and complex information environments as you endeavor to answer wicked questions. Our spaces, technology, resources and programs can help you discover who you are, what you value and believe in and all that you are capable of creating. Think of the Libraries as your campus living room – a place where you can relax, recharge, learn and connect with us and each other.

Math Center

Relax – the Math Center is here for all students, no matter your level of experience or confidence. It is an open and friendly environment where students can feel comfortable asking questions. In addition to tutoring, we offer mastery testing and math prerequisite advising. It is easy to access tutoring services: just drop in at either of our locations or log on for our late-night virtual tutoring hours via Zoom.

The Study

The Study is an ambition-based resource for you as you adapt to expectations and opportunities throughout college. By accessing in-person peer coaching and online content in Canvas, you will more quickly develop and enhance key skills for academic success at every stage. This is your spot for effective (and timesaving!) strategies to manage priorities, communicate with professors and classmates, study, learn and tame pesky habits like procrastination.

Student Accessibility Services

The Student Accessibility Services team is a crucial resource for removing barriers and providing community-wide access for students with a range of disabilities. We create connections with faculty and staff to identify and implement reasonable accommodations to mitigate barriers. If you encounter barriers due to a disability or condition, we may be able to help level the playing field – but it's up to you to initiate and manage our interactive process, starting with the QR code below!

Writing Center

Put simply, the Writing Center exists to help you write better papers and become a better writer. It's an informal spot where you can bring questions to your peers. One-on-one sessions with a tutor can help with brainstorming, organizing your thoughts, clarifying your assertions, recognizing grammar mistakes and more.
