

DNP: FAMILY NURSE PRACTITIONER

The Doctor of Nursing Practice: Family Nurse Practitioner track **prepares actively practicing RNs to care for patients across their lifespan.** As an FNP student, you will be taught how to complete comprehensive health assessments, order appropriate diagnostic tests, complete advanced-level procedural skills, manage and diagnose acute and chronic conditions, and serve as a primary health care provider in a variety of settings. Students will design models of health care delivery, evaluate clinical outcomes, identify and manage the health care needs of diverse populations, and use technology and information to transform the field.

Now offering a fall or spring start!

Earning your DNP will advance your nursing career

- On average, primary care nursing practitioners make over \$90,000 annually and have increased earning potential.

This program can help you do it

- The flexible, hybrid program lets you learn at a pace that allows you to balance your education with your family and career obligations.

100% Guaranteed Clinical Placement

DNP: Family Nurse Practitioner

ELIGIBILITY

- A 4-year nursing degree from an accredited program conferred prior to the start of the program
- Cumulative GPA of at least 3.0
- Current, unencumbered licensure as a registered nurse
- Preferred qualifications for admission include at least 2 years of work experience as an RN

As an FNP, you'll be able to provide patient care in a variety of practice settings, such as:

- Homes
- Hospitals
- Offices
- Schools
- Community health centers
- Rural health centers
- Public and private clinics
- Private practices
