

## MSN: LEADERSHIP & EDUCATION FOR PRACTICE

The Master of Science in Nursing **prepares you for a career as a leader and educator in the health care field** and work in a variety of settings including hospitals, clinics and academic settings.

### 100% Guaranteed Clinical Placement

### MSN: Leadership and Education for Practice

#### ELIGIBILITY

- A 4-year nursing degree from an accredited program conferred prior to the start of the program
- Cumulative GPA of 3.0
- Unencumbered licensure as a registered nurse

### Who is this program for?

Our MSN program will help you develop the research and evidence-based practice skills you need to be an effective leader and to create educational programs.

With your MSN, you will act as both mentor and role model to novice and experienced nurses – becoming a driving force in the training of nurse professionals and improving patient care.

This program is for graduates of a BSN program who are committed to providing exceptional nursing care and want to expand their nursing knowledge, increase their leadership skills and practice with increased competence and confidence. A MSN degree will open doors for advancement in any practice environment.

### Program highlights

- Emphasis on evidence-based practice
- Emphasis on leadership
- Emphasis on education: staff and nursing students' development, and patient education
- Earn certification as a certified nursing educator and/or certified nurse leader
